Craic Coin ($CRAIC) White Paper

A short, honest litepaper. No craic, no gains.

Version 1.3.0 · 18 October 2026 · craiccoin.com/whitepaper

1. What CRAIC is

Craic Coin ($CRAIC) is a community coin on the Solana blockchain, themed on the Irish idea of "craic": good fun, good company and a good night out. It is the native token of Craic Hub, where you get 25% off when you pay in $CRAIC, and of Craic Swap. It has no revenue share and no intrinsic value, and nobody is promised anything for holding it.

2. Utility: Craic Swap and Craic Hub

$CRAIC is built around two live tools. They are the centre of the project.

- **Craic Swap** is a non-custodial swap page. Connect your own Solana wallet and swap SOL, USDC, USDT, JUP, BONK or almost any Solana token for $CRAIC through Jupiter. A cross-chain tab, powered by ChangeNOW, lets you bring coins such as BTC or ETH across to SOL first. Craic Swap never holds your coins or keys. Network and provider fees apply, including a small referral fee that supports Craic Swap.
- **Craic Hub** is a Solana token marketplace for memecoins and fresh launches. A basic listing is free, and a person checks every listing before it goes live. A featured slot at the top costs 0.25 SOL, or **25% less when you pay in $CRAIC**. Holders can also see their holder rank and spend $CRAIC on boosts and flair.
- **Craic Bot** is Craic Hub's Telegram bot, so devs can send in a listing without leaving Telegram.

The only official payment wallet is the Phantom wallet `7GrdQxfmgZMDjBYeivMwg94jqthLqcBuUG75nFd9mZpW`. Using these tools is not an investment: there is no staking, yield, revenue share or promised return.

3. Story and mission

CRAIC launched on pump.fun on 14 October 2026 as a fair launch, with no presale and no tokens set aside for a team before launch. Everyone, the dev included, got tokens the same way, on the same public pump.fun bonding curve.

Mission: to be more than a meme by building a friendly, Irish-flavoured online community. That means quizzes, memes and banter that are free for anyone to join, run openly and safely.

4. The Craic Club

The Craic Club launched on 15 October 2026 in the Craic Chat on Telegram.

- **Craic Pub Quiz:** every Friday at 8pm UK time in the chat. It's 10 questions on Irish trivia, music and sport, starting Friday 23 October 2026.
- **Meme of the Week:** post your best Irish or pub-banter meme with #CraicMeme. The admins pick a winner, who gets announced at Friday's quiz and pinned.
- **XP leaderboard:** earn XP for quiz answers, meme wins and being helpful. The top 10 is posted every Friday.

Always free to enter. You never need to buy, hold or send any token, SOL or money to take part. Prizes are currently shoutouts, pinned memes and bragging rights. No prize amounts are promised, and prizes are never a reason to buy anything. Admins will never DM you first or ask for a seed phrase, private key or "claim" link.

6. Dev wallet and the dev pledge

The creator ("dev") wallet is public on-chain: `7GrdQxfmgZMDjBYeivMwg94jqthLqcBuUG75nFd9mZpW`.

- It bought its CRAIC on the public bonding curve, just like everyone else, and held about 15.6% of supply on 15 October 2026.
- It has never sold any CRAIC. Its only outgoing movement was a one-off transfer of 10,000,000 CRAIC (1% of supply) on 14 October 2026, sent as payment for promotion.
- **Dev tokens locked:** on 18 October 2026 the dev locked 155,375,363 CRAIC (about 15.5% of supply) in a Streamflow token lock. It unlocks in full on 31 October 2027, back to the dev wallet above. It cannot be cancelled or transferred. Streamflow took its standard 0.5% fee in CRAIC on top. Anyone can check it: Streamflow contract (lock account `D24VDg6eRKEPREnQXTxrN3AvpgfRP1tSRLS4ZiPbs3Ey`).
- **Pledge:** the dev has pledged not to sell from the dev wallet. Anyone can check this on-chain at any time.

🧭 The path ahead

Craic Hub and Craic Swap are live today and form our foundation. Each stage below builds on them.

Phase 1: Graduation (next). Complete the pump.fun bonding curve and migrate to full decentralised exchange liquidity, opening $CRAIC to the wider Solana DEX ecosystem.

Phase 2: Expansion to larger exchanges (planned). Broader DEX and aggregator coverage, including Jupiter verification; CoinGecko and CoinMarketCap listing applications; and pursuing listings on larger centralised exchanges, as an aim.

Phase 3: Launch of the Craic Wallet (planned). Our own self-custody Solana wallet. You hold your own keys, and Craic never holds your funds. It is designed to work with Craic Swap and Craic Hub.

Phase 4: Launch of the Craic Exchange (end goal). A full coin exchange, growing out of Craic Swap and Craic Hub: list on Craic Hub, trade on Craic Exchange, and hold in Craic Wallet. It is to be built on the same self-custody principles as Craic Swap.

These are goals we are working towards. Nothing here is confirmed or guaranteed, and we do not commit to dates.
No price targets. Not financial advice.
